

Penguin, AquaBug® & Wanda the Whale®

»»» Above-Ground Suction Cleaners

WITH RELIABLE CLEANING POWER,
THEY'RE YOUR POOL'S NEW BEST FRIEND.

QUICK & EASY INSTALLATION

Hayward® above-ground suction cleaners connect directly to your skimmer, installing in less than 10 minutes without tools. And with no additional equipment required, you can enjoy sparkling clean water without a booster pump.

GENTLE YET EFFECTIVE

A unique turbine system helps Hayward above-ground suction cleaners move gently across the bottom of your pool, providing exceptionally quiet operation. They even improve circulation by pulling water up from the bottom of the pool as they move.

SIMPLY SUPERIOR RESULTS

Equipped with patented SmartDrive® technology, Hayward above-ground suction cleaners cover the bottom of your pool quickly and completely, making sure no debris is left behind. Their deluxe bumper ring reduces friction, guiding them away from walls, steps and ladders to continue the cleaning cycle.

SPECIFICATIONS
