

Introducing SeaKlear Shock Pods for Spas & Hot Tubs

Made in USA

Only SeaKlear offers a convenient, pre-measured method for keeping hot tub water clean without handling messy chemicals.

Easy-to-handle pods eliminate odors including chlorine smell.

SeaKlear Shock Oxidizer Pods

- Oxidizes organic contaminants like skin, perspiration, hair products, body lotions, perfumes and oils
- Minimizes or eliminates odors
- Helps to reduce sanitizer demand
- Controls the formation of chloramines

Ingredients: DuPont™ Oxone® and Sodium Carbonate

- Convenient toss and go pod
- No messy or wasteful measuring vs. granular formulas
- No need to handle chemical tablets directly
- Specially formulated and balanced to maintain pH
- Merchandise with SeaKlear Natural Clarifier as a Shock-Extender
- A great addition to company "auto-ship" programs

Directions:

1. After using your spa or hot tub, toss one pod into the tub with the circulation jets and pump running.
2. The pod will dissolve and effervesce for a few minutes.
3. Leave the cover off for at least 1 hour and keep the pump and filter running for 2 hours.
4. Wait at least 15 minutes after treatment before entering spa water.

Preorder:

To pre-order, e-mail: orders@seaklear.com or fax: 425-556-4120. For customer service, call our Sales Support Team at 1-866-99-KLEAR. Visit us anytime at seaklear.com.

1 pod = treats up to 500 gallons
